

CMSE 801 - Day 23

Project draft presentations

November 20, 2024

General Course Announcements

- Final version of your project notebook is due **December 1 by 11:59pm**.
 - We will assign presentation days on **Monday (11/25)** using a random number generator. **Contact me if you have a conflict with either of the two presentation days (December 2 and December 4)**. We will be meeting in EB 1502/3 (CMSE conference room)
 - Some of our presentations will extend beyond the normal class ending time, if you cannot stick around past 9:50am, please let me know that as well.
 - Your presentation will be **strictly limited to 4 minutes**.
 - You will be getting project credit for observing and rating your peers, so you are expected to attend both presentation days.
- You can continue to work on your slides after that deadline and up until you present.
- Quiz 4 will take place **today**.

Questions/comments from Day 23 PCA

- Lots of effort being made on moving your projects forward
- Some unexpected obstacles have come up

Plans for today

- Present your slides to your group members
 - **Step 1:** present for ~4 minutes
 - **Step 2:** Give group members a minute or 2 to record their feedback
 - **Step 3:** Receive feedback from peers
 - Try to record this feedback or ask your group members to send them their feedback via Teams or email.
- Work on your project using your group feedback and the review the project expectations on the website to make sure you're meeting the requirements for the project.
 - This is a great time to ask us questions and get help on issues you may be running into!

Looking forward - Day 24 PCA: Do more with random numbers, setting up for the Traveling Salesperson

- You'll explore more ways that random numbers can be used to solve problems (e.g. numerical integration)
- You'll think about the traveling salesperson problem and try to write some functions that will be needed to solve that problem
